TRADE SHOW FOR
PROGRESSIVE
CLINICAL DENTISTRY

4th Edition of Famdent Pune Marks Grand Success

Famdent Pune 2020 returned to Pune for the 4th time with about 100 eminent participants showcasing best products in dentistry practices to about 5000 visitors. Close to 20 top speakers deliberated talks, live procedures and workshops on progressive dental practices in front of about 500 delegates.

4th edition of Famdent Pune, the regional exhibition and Conference of FAMDENT, India's premium conference and trade show in advanced dentistry took place between February 8-9, 2020 at Auto Cluster, Exhibition Centre, Pimpri Chinchwad, Pune. Global dental major Colgate Palmolive was the Principal Sponsor for the event. FAMDENT, organized by Messe Düsseldorf India is now a part of the MEDICAlliance umbrella of the Messe Düsseldorf Group. With over 100 exhibitors participating and showcasing resources for progressive dental practices, Famdent Pune 2020 attracted about 5000 visitors, the highest in the history of Famdent's all previous Pune editions.

Famdent Pune also entailed two full day conference program comprising scientific sessions and workshops conducted by close to 20 notable dentists across the country on subjects relating to advanced and progressive dentistry practices. Over 500 paid delegates attended the conference. The E-paper and E-poster presentations, one of the most anticipated event at all Famdent shows, witnessed much enthusiasm amongst dental students, professors and young dentistry practitioners.

Commenting on the success of the 2020 edition of Famdent Pune, Mr. Thomas Schlitt, Managing Director, Messe Duesseldorf India, stated, "The FAMDENT 2020 Conference & Exhibition in Pune was the 4th consecutive event and evidence of the evolution that's shaping the dentistry in this region apart from our flagship annual FAMDENT event in Mumbai. This year the Conference & Exhibition, like the previous editions, delivered the most sought-after education in modern dentistry practices featuring scientific sessions, live procedures, hands-on workshops and Paper & E-Poster Presentations with around 20 top speakers and 500 delegates. This platform brings an excellent opportunity for young and experienced professionals to learn and share their experiences in the dentistry industry in India, particularly the Western India market. Moreover, FAMDENT remains to be an exclusive dentistry event that has been designed by leading dentists who are considered experts in the business and give insightful details to the dentists' fraternity."

Dr Anil Arora, Director, FAMDENT shows, said, "Famdent Show returned to Pune for its 4th edition. Over these years, our Pune Show has become an iconic event - growing exponentially year on year. One of the objectives of FAMDENT Shows is to make it affordable for even the smallest of Dentists from rural areas to attend without feeling a pinch in the pocket. I am so glad that the Pune Show,

exceeding our expectations, attracted one of the widest diaspora of Dentists from surrounding regions - be it cities, towns or villages. Also, once more, it has been proven to be a great platform to help keeping the dental practitioners updated and to experience and purchase goods at highly competitive prices.”

The FAMDENT Show is a fair of the international medical fair family MEDICAlliance of the Messe Düsseldorf Group. Further information on event is available online at:
